CONTENTS OF 107B

Vol. 107B, No. 1

iii Editorial Note

Mini Review

Michael Slaytor and Douglas J. Chappell 1 Nitrogen metabolism in termites

General Papers

Iciar Martinez and Jørgen S. Christiansen 11 Myofibrillar proteins in developing white muscle of the Arctic charr, *Salvelinus alpinus* (L.)

Jakob Weber 21 The metabolism of poly(γ-glutamic acid)s of nematocysts in *Hydra vulgaris*: detection of two distinct hydrolytic enzymes in endoderm and in nematocysts

Shiying Wang and F. W. Edens 33 Hsp70 mRNA expression in heat-stressed chickens

María del Pilar Sánchez Saavedra and Domenico Voltolina 39 The chemical composition of *Chaetoceros* sp. (Bacillariophyceae) under different light conditions

Gheorghe Benga, Gregory B. Ralston, Tudor Borza, Bogdan E. Chapman, Clifford H. Gallagher and Philip W. Kuchel 45 NMR studies of diffusional water permeability of red blood cells from the echidna *Tachyglossus aculeatus*

Quanzhi Li and Charlotte L. Ownby 51 Cross reactivities of monoclonal antibodies against hemorrhagic toxins of Prairie rattlesnake (*Crotalus viridis viridis*) venom

R. Munilla-Morán 61 Biochemical studies in marine species—II. $NADP^+$-dependent isocitrate dehydrogenase from turbot (*Scophthalmus maximus* L.) larvae

Harald Husebye, Svein Lund, Mona Möller, Arne Sunde and Hans E. Krokan 69 A *Bkm*-related DNA sequence gives individual DNA fingerprints in turbot (*Scophthalmus maximus*), but neither *Bkm*-related, human *SRY* or human *ZFY* probes detect genetic sex differences

Marcel T. M. van Raaij, Bert-Jan Breukel, Guido E. E. J. M. van den Thillart and Albert D. F. Addink 75 Lipid metabolism of goldfish, *Carassius auratus* (L.) during normoxia and anoxia. Indications for fatty acid chain elongation

Klaus Slenzka, Bettina Freischütz, Ramona Appel and Hinrich Rahmann 85 Comparative investigations of the cellular and subcellular distribution of brain creatine kinase and Ca^{2+}–Mg^{2+}–ATPase activity of cichlid fish and dwarf hamster

C. Ziegler, G. Ader and G. Beinbrech 91 Evidence for two myosin types in indirect insect flight muscles

Michiyori Kobayashi, Gaku Sato, Ken-ichi Ishigaki and Yoshihiko Igarashi 99 Hill and Scatchard plots of *Daphnia magna* hemoglobin

G. Kattner, I. S. Wehrtmann and T. Merck 103 Interannual variations of lipids and fatty acids during larval development of *Crangon* spp. in the German Bight, North Sea

J. P. Grobler and F. H. Van der Bank 111 Allozyme polymorphism and phenotypic variation in African catfish (*Clarias gariepinus*)

William E. Robinson and M. Patricia Morse 117 Biochemical constituents of the blood plasma and pericardial fluid of several marine bivalve molluscs: implications for ultrafiltration

John A. Trotter and Thomas J. Koob 125 Biochemical characterization of fibrillar collagen from the mutable spine ligament of the sea-urchin *Eucidaris tribuloides*

H. Trembacz and M. M. Jeżewska 135 Adenosine phosphorylase and other enzymes of purine salvage in Pulmonata snails and their Trematoda parasites

Nikolai D. Ozernyuk, Olga S. Klyachko and Ekaterina S. Polosukhina 141 Acclimation temperature affects the functional and structural properties of lactate dehydrogenase from fish (*Misgurnus fossilis*) skeletal muscles

C. C. Ku, C. H. Lu, G. H. Kou and S. N. Chen 147 Purification and immunological characterization of color carp (*Cyprinus carpio*) fibroblast heat-shock proteins

W. G. Zijlstra, A. Buursma, H. E. Falke and J. F. Catsburg 161 Spectrophotometry of hemoglobin: absorption spectra of rat oxyhemoglobin, deoxyhemoglobin, carboxyhemoglobin and methemoglobin

Vol. 107B, No. 2

Mini Reviews

Christian Schwabe 167 Theoretical limitations of molecular phylogenetics and the evolution of relaxins

Tomoo Noguchi, Satoko Fujiwara, Sueko Hayashi and Haruhiko Sakuraba 179 Is the guinea-pig (*Cavia porcellus*) a rodent?

General Papers

Mika Yoshida and Akira Tonosaki 183 Anti-lamprey (*Lampetra japonica*) retinal antibodies which distinguish between short and long photoreceptor cells

Sergio Scapin and Graziano Di Giuseppe 189 Seasonal variations of glycogen synthase and phosphorylase activities in the liver of the frog *Rana esculenta*

H. R. Kim, Samuel P. Meyers, J. H. Pyeun and J. Samuel Godber 197 Enzymatic properties of anionic trypsins from the hepatopancreas of crayfish, *Procambarus clarkii*

E. Mañanós, S. Zanuy, F. Le Menn, M. Carrillo and J. Núñez 205 Sea bass (*Dicentrarchus labrax* L.) vitellogenin. I—Induction, purification and partial characterization

E. Mañanós, J. Núñez, S. Zanuy, M. Carrillo and F. Le Menn 217 Sea bass (*Dicentrarchus labrax* L.) vitellogenin. II—Validation of an enzyme-linked immunosorbent assay (ELISA)

Kazuhiro Ura, Akihiko Hara, Hiroshi Kawamura and Kohei Yamauchi 225 Immunochemical studies on serum proteins in juvenile masu salmon, *Oncorhynchus masou*

Md Abul Faiz, John B. Harris and David Mantle 231 Biochemical analysis of degeneration and regeneration in rat soleus muscle induced by venom from three subspecies of *Daboia russelli*

C. I. Osuala, R. L. Donner and S. S. Nielsen 241 Partial purification and characterization of an aminopeptidase from the bean weevil larvae *Acanthoscelides obtectus* Say (Coleoptera, Bruchidae)

Janusz Karasinski, Bozena Zawadowska and Iveta Supikova 249 Myosin isoforms in selected muscle fibre types of the pond loach *Misgurnus fossilis* L.

Gunn Kisen, Claudiane Gallais, Benoit Auperin, Helge Klungland, Olivier Sandra, Patrick Prunet and Øivind Andersen 255 Northern blot analysis of the Na^+, K^+-ATPase α-subunit in salmonids

Hong-yu Li, Shigeki Matsunaga and Nobuhiro Fusetani 261 Simple antifungal metabolites from a marine sponge, *Halichondria* sp.

Merete Grung, Pierre Metzger, Claire Berkaloff and Synnøve Liaaen-Jensen	265	Studies on the formation and localization of primary and secondary carotenoids in the green alga *Botryococcus braunii*, including the regreening process
Motoyuki Sumida, Xi Lin Yuan and Fujiyoshi Matsubara	273	Purification and some properties of soluble β-fructofuranosidase from larval midgut of the silkworm, *Bombyx mori*
Janet M. Cottrell, Ian F. Henderson and Denis J. Wright	285	Studies on the glycosaminoglycan component of trail mucus from the terrestrial slug, *Arion ater* L.
A. Grémare and G. Vétion	297	Comparison of several spectrofluorimetric methods for measuring RNA and DNA concentrations in the deposit-feeding bivalve *Abra ovata*
A. M. Scrivener and M. Slaytor	309	Cellulose digestion in *Panesthia cribrata* Saussure: does fungal cellulase play a role?
Valery M. Dembitsky, Tomas Rezanka and Andrey G. Kashin	317	Comparative study of the endemic freshwater fauna of Lake Baikal—III. Phospholipid and fatty acid compositions of the amphipod crustacean of the genus *Eulimnogammarus*
Valery M. Dembitsky, Tomas Rezanka and Andrey G. Kashin	325	Comparative study of the endemic freshwater fauna of Lake Baikal—IV. Phospholipid and fatty acid compositions of two gastropod molluscs of the genus *Valvata*
Valery M. Dembitsky, Tomas Rezanka and Andrey G. Kashin	331	Phospholipid and fatty acid compositions of the endemic amphipod crustacean *Issycogammarus bergi* from the brackish mountain lake Issyk-Kul (Tian Shan, Middle Asia)
Subhadra Banerjee, Partha P. Banerjee, San-Tai Shen and John Yuh-Lin Yu	337	Studies on purification and characterization of pituitary thyrotropin from black silver carp, *Aristichthys nobilis*
Elena Bravo, Alfredo Cantafora, Annarica Calcabrini and Giuseppina Ortu	347	Why prefer the golden Syrian hamster (*Mesocricetus auratus*) to the Wistar rat in experimental studies on plasma lipoprotein metabolism?
David S. Nichols, Dick Williams, Graeme A. Dunstan, Peter D. Nichols and John K. Volkman	357	Fatty acid composition of Antarctic and temperate fish of commercial interest
Shohshi Mizuta, Reiji Yoshinaka, Mamoru Sato and Morihiko Sakaguchi	365	Characterization of collagen in muscle of several crustacean species

Vol. 107B, No. 3

John M. Uscian and David W. Stanley-Samuelson	371	Fatty acid compositions of phospholipids and triacylglycerols from selected terrestrial arthropods
Marcia Noriko Yokoyama, Zenta Kajiura, Hitoshi Arai, Masao Nakagaki and Ryuzo Takei	381	A new female-specific fat body protein of *Antheraea pernyi*: purification, immunological properties, developmental profile and synthesis
Kazuo Shiomi, Kunihiro Utsumi, Satoshi Tsuchiya, Kuniyoshi Shimakura and Yuji Nagashima	389	Comparison of proteinaceous toxins in the skin mucus from three species of eels
Koji Muramoto, Hiroshi Yako and Hisao Kamiya	395	Multiple lectins as major proteins in the coelomic fluid of the acorn barnacle *Megabalanus rosa*
Koji Muramoto, Hiroshi Yako, Koji Murakami, Satoshi Odo and Hisao Kamiya	401	Inhibition of the growth of calcium carbonate crystals by multiple lectins in the coelomic fluid of the acorn barnacle *Megabalanus rosa*

Ivan Yu. Sakharov, Fedor E. Litvin, Olga V. Mitkevitch, Gennady P. Samokhin and Zhanna D. Bespalova 411 Substrate specificity of collagenolytic proteases from the king crab *Paralithodes camtschatica*

Allen H. Altman, Russell J. Buono and Margaret O. James 419 The effect of ecdysis on DNA of the hepatopancreas and green gland of the Florida spiny lobster (*Panulirus argus*)

Kazuo Shiomi, Masakazu Mizukami, Kuniyoshi Shimakura and Yuji Nagashima 427 Toxins in the salivary gland of some marine carnivorous gastropods

Theodore T. Herskovits and Mary G. Hamilton 433 The molecular weight and subunit organization of *Helisoma trivolvis* (Say) hemoglobin: light-scattering and scanning transmission electron microscopic studies

G. P. Serrazanetti, C. Pagnucco, L. S. Conte, R. Artusi, S. Fonda-Umani and C. Bergami 443 Sterols and fatty acids in zooplankton of the Gulf of Trieste

Mahmood Vessal and Nasrin Bambaea-Row 447 Partial purification and comparison of the kinetic properties of ovine liver *Echinococcus granulosus* hydatid cyst fluid malate dehydrogenase and the cytoplasmic enzyme from the host liver

Che-Chun Chen and Shiu-Nan Chen 453 Vitellogenesis in the giant tiger prawn, *Penaeus monodon* Fabricius, 1789

Theodore A. Macrides, David A. Faktor, Nicole Kalafatis and R. Gary Amiet 461 Enzymic sulfation of bile salts. Partial purification and characterization of an enzyme from the liver of the shark *Heterodontus portusjacksoni* that catalyses the sulfation of the shark bile steroid 5β-scymnol

Ivan Škrtić and Ljubinka Vitale 471 Methionine-preferring broad specificity aminopeptidase from chicken egg-white

M. Kaloyianni, K. Kotinis and E. G. Gounaris 479 Purification and kinetic properties of phosphofructokinase from *Rana ridibunda* erythrocytes

Anita Williams, Joseph P. Taulane and Percy J. Russell 489 Comparative inhibition patterns of adenylate kinases from mammals, bird, fish and microorganisms

Vol. 107B, No. 4

Mini Review

Mark A. Sheridan 495 Regulation of lipid metabolism in poikilothermic vertebrates

General Papers

Kim G. Michelsen, Jamie S. Harmon and Mark A. Sheridan 509 Adipose tissue lipolysis in rainbow trout, *Oncorhynchus mykiss*, is modulated by phosphorylation of triacylglycerol lipase

J. A. Levy and V. P. F. Cassano 515 Biochemical–genetic comparison of *Cynoscion jamaicensis* and *Cynoscion striatus* (Teleostei: Perciformes: Sciaenidae) in South Brazil

S. G. Birkhold and A. R. Sams 519 Concurrent identification of calpains I and II from chicken skeletal muscle

Thomas W. Keenan and Charles H. Zierdt 525 Lipid biosynthesis by axenic strains of *Blastocystis hominis*

Tomoaki Tanaka and Eiji Ichishima 533 Inactivation of chemotactic peptides by aminopeptidase Ey from hen's (*Gallus gallus domesticus*) egg yolk

Anna Maria Eleuteri, Mauro Angeletti and Evandro Fioretti 539 Proteinase inhibitors of the Kunitz family in fallow deer organs: a comparative study

Ivaylo Elenkov, Tsenka Milkova, Stoitse Andreev and Simeon Popov	547	Sterol composition and biosynthesis in the Black Sea sponge *Dysidea fragilis*
Xun Gu and Anthony J. Zera	553	Developmental profiles and characteristics of hemolymph juvenile hormone esterase, general esterase and juvenile hormone binding in the cricket, *Gryllus assimilis*
Masatoshi Mita	561	Production of diacyl phosphatidic acid by sea-urchin spermatozoa treated with egg jelly
Christian H. Schleicher and José A. Santomé	567	Purification, characterization and partial sequencing of the heart fatty acid-binding protein from *Bufo arenarum*
A. A. Tawfik, M. S. A. Akef and S. S. Abdel-Mageid	573	Electrophoretic and morphometric evidence for two species of the genus *Rana* (Amphibia, Ranidae) and some aspects of their variabilities
Yutaka Kawaguchi, Yutaka Banno, Katsumi Koga, Hiroshi Doira and Hiroshi Fujii	579	Haemolymph protein profiles in allatectomy-induced trimolters resemble those of a recessive trimolting mutant of the silkworm, *Bombyx mori*
Basile Michaelidis and Theologos Pardalidis	585	Regulation of pyruvate kinase (PK) from the ventricle of the land snail *Helix lucorum* L. during early and prolonged estivation and hibernation
Olga S. Klyachko and Nikolai D. Ozernyuk	593	The effect of temperature on the kinetic properties of lactate dehydrogenase from embryos of various fish species
Lewis Stevens, Kay Nicol, Sharon M. Kelly, Catherine Scott, J. S. Grant Reid and Nicholas C. Price	597	Purification and characterization of the riboflavin-binding protein from goose (*Anser anser*) egg yolk
Qiushi Xie and Gavin M. Burnell	605	Interference of Mg^{2+} and Ca^{2+} on protein determination with Lowry's method
Qiushi Xie and Gavin M. Burnell	609	Determination of haemolymph protein in Manila clam (*Ruditapes philippinarum*) by Lowry's method
N. J. Gavrilova and M. S. Setchenska	613	Casein and tyrosine kinase activities of developing chick embryo liver. Effect of triiodothyronine
G. Isani, O. Cattani, E. Carpenè and P. Cortesi	617	Kinetic properties of liver and muscle pyruvate kinase of a marine teleost, sea bass (*Dicentrarchus labrax* L.)
I. Di Rosa, S. Contenti, A. Fagotti, F. Simoncelli, G. B. Principato, F. Panara and R. Pascolini	625	Fibronectin from the hemolymph of the marine bivalve *Mytilus galloprovincialis*. Purification, immunological characterization and immunocytochemical localization
Walter M. Goldberg, Theodore L. Hopkins, Susan M. Holl, Jacob Schaefer, Karl J. Kramer, Thomas D. Morgan and Kiho Kim	633	Chemical composition of the sclerotized black coral skeleton (Coelenterata: Antipatharia): a comparison of two species
Gabriela Martínez, Patricia Behrens and Zulema Coppes	645	pH and temperature influences on the K_m values of LDH-A_4 from white muscles of two eurythermal sciaenid fishes
